FOREWORD

The Statistical Review of the Ryman Football League now in its eleventh year of publication is a comprehensive record of the 2007/08 season. The Ryman Football League plays an essential role in Steps 3 and 4 of the football pyramid. The complete playing record of the sixty six member clubs including results, goalscorers and attendances from league and major cup competitions. Details of every player's league appearances, goals and normal playing position are also featured including an alphabetical index of players used in Ryman League games from Jay Abberley who appeared for Waltham Forest to Erkan Yusuf who featured for Tilbury. There is one added feature in this year's review in the club section and players who are on a loan period have been highlighted.
